Introduction

The health and safety of our students, staff, and families are our highest priorities. In order to address the health concerns imposed upon us from the COVID-19 pandemic, a plan needed to be developed for a safe return to school. In collaboration with the School Safety Planning Team, faculty and staff as well as the members of the School Board and PACE, the plan has been developed and vetted for our school's return to in-person instruction. This plan is based on guidance from local and state public health officials as well as the Diocese of Oakland. This St. Agnes Reopening Plan has been updated to reflect the State of California's *COVID-19 Reopening In-Person Instruction Framework and Public Health Guidance for K-12 Schools in California, 2020-2021 School Year* issues on January 14, 2021.

https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Consolidated_Schools_Guidance.pdf

As required, our school has posted a COVID-19 Safety Plan (CSP) - referenced as the St. Agnes School Reopening Plan - on the homepage of our school's website. Our School Reopening Plan includes the school's Cal/OSHA COVID-19 Prevention Program (CPP) and the COVID-19 School Guidance Checklist. The detailed plans describing how our school meets the requirements outlined in the CSP elements are found in this St. Agnes School Reopening Plan. This health and safety plan will be updated as the situation and county health orders evolve.

CDC: Back to School Strategies and Tips

- [Reopening with COVID-19: Promote Healthy Behaviors](#)
- [Maintaining Healthy Operations](#)

CA Department of Public Health

- [COVID-19 Industry Guidance: Schools and School-Based Programs](#)

Contra Costa County Health Services

- [COVID-19: Information For Schools and Childcare](#)

Cleaning & Disinfecting

Our school will adhere to the disinfection guidelines developed by the California Department of Public Health and the Centers for Disease Control and Prevention for classrooms, workspaces, outdoor spaces, playgrounds, etc. Prior to returning to in-person instruction, the school will receive a deep cleaning. The buildings will be disinfected, including classrooms, using a commercial cleaning service. Electrostatic spraying method using the “N” level of sanitizing chemical per the CDC requirements completed as part of this process. This is the highest level of cleaning, combining the cleaning and disinfecting into one product

Daily janitorial service will occur on school days after school hours to ensure that each day will start with newly sanitized classrooms and common areas. There will be daily cleaning and disinfecting of high touch hard surfaces (e.g., tables, desks, chairs, door handles, light switches, phones, copy/fax machines, bathroom surfaces (toilets, countertops, faucets), drinking fountains, and playground equipment) and shared objects (toys, games, art supplies, books) pursuant to CDC guidance.

Student bathrooms will be used by only one stable group at a time. Teachers and staff will accompany students to and from their designated locations to ensure the stable group remains secure, and disinfect restroom high touch areas after use. There is clear signage with sanitation products for staff to use before and after each time they use one of the dedicated staff bathrooms.

The sharing of supplies between students will be limited. Each child will have a set of their own materials to use throughout the day, to mitigate risk of infection within each stable group. For materials/items that are shared, children will sanitize their hands first, the teacher will sanitize the item(s) after they are done and the child(ren)’s will sanitize their hands again as well. Cleaning and Disinfecting Video: [Coronavirus \(COVID-19\): Safely Cleaning and Disinfecting at Work](#) (7 min)

COVID19 Symptoms

- Fever
- Chills,
- Cough
- Shortness of breath
- Difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Recent loss of taste or smell
- Sore throat
- Congestion or runny nose,
- Nausea
- Vomiting
- Diarrhea.

Entrance, Egress, and Movement within the School

For the safety of the children and staff, as well as our families, parent volunteers will be strictly limited and parent presence on campus will be extremely limited. Anyone entering the school campus must comply with the applicable county COVID-19 requirements. Failure to comply is a violation of law. Unless specifically exempted by the applicable county health guideline, anyone entering the school campus must wear Personal Protective Equipment (PPE) covering his/her nose and mouth. The school will limit visitors to those visits essential for the school's operations and limit the duration of time a visitor shall be on campus. Outside food delivery (e.g., Parent Food Delivery, Door Dash, Uber Eats, etc.) will not be permitted.

No parent, guardian, student, employee or visitors shall enter the school premises if that person has: (a) received a positive test result for COVID-19; (b) has sought medical treatment for COVID-19 symptoms; (c) is quarantined or self-quarantined because of COVID-19, whether diagnosed or not; or (d) has a temperature of 100 or greater. In all such cases, the person shall not enter the campus without obtaining written medical clearance and providing it to the school principal. All families must follow the carpool drop-off/pick-up protocols based on oldest child's grade. Parents will not be permitted to leave their car or enter the building during this time. All students will remain in their stable groups during the drop off and pick-up period of the day.

Morning Drop-off:

Vehicles with families of children in grades K & 1 (not having siblings enrolled at St. Agnes School) will enter the staff parking lot and pull forward to the flag pole. Cars with families of children in grades 2-8 (and their siblings) will form 5 lines parallel to the main school building. Staff will monitor arrival and to curtail congregating and ensure students go straight from their vehicle to their classroom. Students will be dismissed from their cars and directed to the appropriate stairs to enter the porch of the main building or appropriate pathway to other school buildings. Children will go directly to their classroom. Once children have safely

exited the area, staff will direct cars to leave the campus by designated lanes and a new group will fill in the vacant lane.

Afternoon Pickup:

Vehicles with families of children in grades K & 1 (without siblings enrolled at St. Agnes School) will enter the staff parking lot and pull forward to the flag pole. Cars with families of children in grades 2-8 (and their siblings) will form 5 lines parallel to the main school building. Staff will monitor dismissal to curtail congregating and ensure students go straight from their classroom to their vehicle. Students will be dismissed from their classroom and directed to the appropriate stairs or appropriate pathway to their car. Once children have safely entered their vehicle, staff will direct cars to leave the campus by designated lanes and a new group will fill in the vacant lane.

Six feet of space markings will be placed throughout the campus to remind students and staff to always stay 6 feet apart in lines and at other times they may congregate (e.g., during lunch, arrival and dismissal, restrooms, etc.).

Signage will be posted in high visibility areas (entrances, parking lot, playground, classrooms, hallways and bathrooms) to remind students and staff:

- When and where face coverings are required
- Appropriate use of face coverings
- Physical distancing expectations
- Traffic flow
- Proper techniques for handwashing
- Covering of coughs and sneezes and other prevention measures
- At entrances instructing students, staff, and visitors not to enter campus if they have any COVID-19 symptoms.

Face Coverings and Other Essential Protective Gear

All guests, parents, and visitors will be required to wear face-covering whenever on-campus. All staff must use face coverings in accordance with CDPH guidelines:

- CDPH recommends disposable 3-ply surgical masks, which are more effective than cloth face coverings.
- For staff, bandanas, gaiters and similar face coverings are no longer acceptable.
- In limited situations where a face covering cannot be used for pedagogical or developmental reasons, a face shield with a drape can be used as long as the wearer maintains physical distance from others.
- Faculty/staff will wear face covering while on campus, except while eating or drinking.
- Face coverings will be provided to students and staff who lose their face coverings or forget to bring them to school.

Students in all grades K-8 will be required to wear face coverings at all times, while at school, unless exempted. and should fit snugly on the face while covering both the nose and mouth. Please note the following:

- Surgical masks may be used, but fabric masks are encouraged.
- Bandannas and neck gaiters are not acceptable options as masks.
- N95 masks are not recommended for general use on campus.
- Masks with valves attached to them are not permitted, as the valves increase the number of respiratory droplets released into the air.

Mask Wearing

- [We Wear Masks - A Social Story about the Coronavirus](#) (2min)
- [Wear a Mask Song for Kids](#) (3min)
- [Mask Up Video](#) - Spanish (30 seconds)

Health Screenings for Students and Staff

Our school will require parents, guardians, students and employees to answer basic health screening questions related to COVID-19 symptoms before coming to school each day. A list of COVID-19 symptoms (a cough; shortness of breath or difficulty breathing; a fever of 100.4°F or higher or a sense of having a fever; a sore throat; chills; new loss of taste or smell; muscle or body aches; headache; nausea/vomiting/diarrhea; congestion/running nose – not related to seasonal allergies; unusual fatigue) and a self-checker is available on the [Center for Disease Control \(CDC\) website](#). Further, once present at school, if an employee, student or visitor exhibits symptoms of COVID-19, the school may conduct health screening and isolate the person, consistent with county guidelines. (No medical testing, blood or saliva draw will be performed.)

Anyone who has been exposed to someone with COVID-19 in the past 14 days (exposure means within 6 feet for 15-minutes or longer), has COVID-19 symptoms, or who is not feeling well will not be permitted on our campus. Students and staff will also conduct self-checks for symptoms throughout the day. Those who develop signs and symptoms of COVID-19 will be sent home.

All parents, guardians, students and employees must immediately notify the school principal if a student or employee has come into contact (through living arrangements or otherwise) with any person that has: (a) received a positive test result for COVID-19; (b) has sought medical treatment for COVID-19 symptoms; or (c) is quarantined or self-quarantined because of COVID-19, whether diagnosed or not. In any of these situations, the person will not be allowed on school property, until the minimum county isolation/quarantine requirements have been met.

Positive COVID-19 Case

In the event of a positive case, the school will:

1. Schools must adhere to required reporting requirements and notify, as describe below, the LHD of any newly reported case of COVID-19 in a student or staff member if the LHD has not yet contacted them about the case,
2. If the case is present at school at the time the school is notified, the case must go home and be excluded from school for at least 10 days from symptom onset date or, if asymptomatic, 10 days from the date the specimen was collected for the positive test.
3. Assist LHD in identifying close contacts of the case. Send a notice, developed in collaboration with the LHD, to parents and staff to inform them that a case of COVID-19 in a student or staff member has been reported and that the school will work with the LHD to notify exposed people.
4. Arrange for cleaning and disinfection of the classroom and primary spaces where case spent significant time. This does not need to be done until students and staff in the area have left for the day.
5. Implement online/distance learning for student cases if they are well enough to participate.

Required COVID-19 Reporting

- The school will notify the local health officer of any known case of COVID-19 among any student or employee who was present on a campus within the 10 days preceding a positive test for COVID-19. Specifically, the school shall report the following information:
 - The full name, address, telephone number, and date of birth of the individual who tested positive;

-
- The date the individual tested positive, the school(s) at which the individual was present on-site within the 10 days preceding the positive test, and the date the individual was last on-site at any relevant school(s); and
 - The full name, address, and telephone number of the person making the report.
 - This information shall be reported to the local health officer by telephone within **twenty-four hours** from the time an individual within the local educational agency or private school is first made aware of a new case.
 - The school liaison to the LHD is: Ana Kelley or Jill Lucia

Cluster or Outbreak at School

When either a school or LHD is aware that an outbreak may be underway, the LHD should investigate, in collaboration with the school, to determine whether these cases had a common exposure at school (e.g., a common class or staff member, bus ride, or other common exposures outside of school). CDPH defines a school outbreak as 3 or more confirmed or probable cases of staff or students occurring within a 14-day period who are epidemiologically linked in the school, are from different households and are not contacts of each other in any other investigation cases (e.g., transmission likely occurred in the school setting).

During the investigation, the school will:

1. Notify parents/guardians and school staff of a cluster/outbreak investigation related to the school and encourage them to follow public health recommendations.
2. Identify, as part of the CSP, one or more school staff member who can liaise with the LHD regarding the cluster/outbreak investigation by confirming which classes and stable groups included confirmed cases or symptomatic students and staff members, and if recent events or gatherings involved any cases or symptomatic persons.

-
3. Identify absenteeism among those in affected classes or stable groups, and coordinate with the LHD to contact these absentees to screen for symptoms of COVID-19 if they were exposed to a case during the cases infectious period.
 4. Coordinate with the LHD to share a line list of cases and contacts with dates present at or absent from school.
 5. Arrange for cleaning and disinfection of classrooms or other areas where cases or symptomatic students or staff members spend significant time.
 6. Coordinate with the LHD on notifications to the school community, including specific notifications of stable groups or classrooms regarding their exclusion status and instructions.
 7. Coordinate with the LHD on whether and when the school should be closed and reopened.
 8. Notify the school community if the school is to be closed for 14 days due to widespread and/or ongoing transmission of SARS-CoV2 at the school or in the general community, and repeat recommendations for prevention and control measures.
 9. Implement online/distance teaching and learning during school closure.
 10. Arrange for cleaning and disinfection of entire school before reopening in the case of closure.

Health Hygiene Practices

Students will move with their stable group at scheduled times for bathroom visits. Teachers and staff will accompany students to and from their designated locations to ensure stable groups remain secure, and disinfect restroom high touch areas after use.

Teachers will reinforce with students the importance of using tissues to wipe their nose and to cough/sneeze inside a tissue or in their elbow. Teachers, staff and students will also be reminded daily to wash their hands before and after eating; after coughing or sneezing; after being outside; and before and after using the restroom. Students and staff will be required to wash their hands for 20 seconds with soap, rubbing thoroughly after application, and use paper towels to dry hands thoroughly. Teachers and staff will model and practice proper handwashing with students as needed. Where soap and water are not readily available, staff and students are to use hand sanitizer with at least 60% alcohol. Children under the age of 9 will be supervised by an adult whenever using hand sanitizer.

Hand Washing Videos from the CDC

- [Happy Handwashing Song](#) (30 seconds)
- [Wash Your Hands-Child Video](#) (30 seconds)
- [What you need to know about handwashing](#) (2 minutes)
 - [En Español, En français](#)

If a student should become ill while at school and is showing COVID-19 symptoms, the student's parent or guardian will be contacted and notified of the situation. Parents will then have to immediately pick up the student. Contact will be made by phone, with follow up text or email.

The parent or guardian will be directed to not enter the school building and pick up the student curbside. The employee who accompanies the potentially ill student, will wear PPE, including but not limited to mask and gloves. Our staff will advise the parent and/or guardian to contact the student's physician and for the student to get tested, isolate in their home or another

residence, and refrain from going out in public, except for medical care. The student will remain out of school pending test results. Parents will be directed to the following Contra Costa County Public Health Department website containing information about local testing sites:

- [Contra Costa Covid-19 Testing.](#)

Identification and Tracing of Contacts

Our school will follow Cal-OSHA reporting and recording instructions for all employees as well as reporting any positive Covid-19 cases to the corresponding County Health Department. Our school will cooperate with state and local health departments' contact tracing protocols. Our designated COVID-19 Contact Tracers are: Ana Kelley and Jill Lucia. They will follow county recommendations for contact tracing. Information on contact tracing can be found here:

- [COVID-19 Contact Tracing](#)

The contact tracing process will immediately commence if and when a COVID-19 positive case occurs. Our contact tracers will assist public health departments in knowing who may have had contact at the school with a confirmed case by:

- Keeping accurate attendance records of students and staff members;
- Ensuring student schedules are up to date;
- Keeping a log of any visitors, including date, time and where in the school they visited;
- Assisting local health departments in tracing all contacts of the individual at school; and
- Maintaining confidentiality as required by federal and state laws and regulations.

If an employee tests positive for COVID-19 or has come in close contact with someone who tested positive, s/he will inform the school's designated COVID-19 Contact Tracers, who in turn will notify Contra Costa County Health Officials using this form:

- [Notification to CCCPHD](#)

Our school will notify others who have been in "close contact" with the affected individual. Close contact" is defined by the CDC as being within six feet for a period of at least 15 minutes, although this standard is not absolute.

If anyone in a staff member's or student's family, or someone they have been within 6 ft of for more than 15 minutes, and is exhibiting distinctive symptoms of COVID-19 (fever above 100, shortness of breath, loss of taste or smell, cough), the staff member or student will be required to stay home for 72 hours for observation or until a negative COVID-19 test is produced. Co-workers who may have had contact with a person who tested positive for COVID-19, will be informed by our school and it will be recommended they get COVID-19 testing and self-isolate

Instructions on isolation and quarantine procedures for Contra Costa County can be found at:

- [Home Quarantine Instructions for Close Contacts](#)
- [Self-Isolation Instructions for Confirmed COVID-19 Cases](#)
- [Self-Isolation Instructions for Unconfirmed COVID-19 Cases](#)

In accordance with an individual's right to medical privacy, our school will never disclose an infected person's name. An affected employee will be asked to follow his/her medical provider's instructions and the recommended quarantine/isolation instructions per the corresponding County Health Department prior to returning to the school campus. Similar protocols will be followed for students.

Physical Distancing

Physical distancing is an effective way to prevent potential infection. Employees, students, parents, and visitors will practice staying the recommended distance from others and eliminating contact with others whenever possible. Nonessential, informal meetups, and ad-hoc gatherings will be avoided. Lunchtimes, recesses and other transition times will be staggered as needed.

Classroom Spaces:

- Teacher and other staff desks will be distanced 6 feet away from student and other staff desks.
- Student chairs will be distanced at least 6 feet away from one another, except where 6 feet of distance is not possible after a good-faith effort has been made.
- Under no circumstances should distance between student chairs be less than 4 feet.
- If 6 feet of distance is not possible, optimize ventilation, use desk partitions, or arrange desks to minimize face-to-face contact.
- Markings on classroom floors will identify traffic flow in the classrooms. Floor markings will identify walking directions throughout the campus in order to maintain physical distancing requirements.

Social Distancing Videos

- [Sesame Street: Practicing Social Distancing with Abby and Rudy \(2 min\)](#)

CDC: Back to School Strategies and Tips

- [Prepare for When Someone Gets Sick](#)

Stable Groups

All students will remain with their own classes, a stable group, throughout the school day. Each stable group represents a group of students and staff members that will stay together through the course of a day to eliminate or limit the mixing of students and staff in classes or congregate settings. These stable groups will not physically interact with each other to minimize exposure. Lunch and recesses will be staggered and classes (stable groups) will not share play areas or play equipment. The number of students per stable group is based on room size and configuration to maintain physical distancing requirements between students and between adults and students. Students in grades K-8 (with the exception of grades 3 & 5 due to smaller class size) will be divided into two stable groups. Kindergarten students will attend school five days/week in two sessions, morning or afternoon. Students in grades 1st-5th will attend school 5 days/week. Junior High classes (6-8 grade) will attend school using a hybrid schedule: Monday & Thursday or Tuesday & Friday with Wednesday a remote learning day for 6th and 7th grade stable groups. Both 8th grade stable groups will attend school on campus each Wednesday but in separate classrooms. Teachers will rotate to classes, students will stay in assigned classrooms.

Cohort Size	Schedule to Return
● Preschool: 10	August 24
● K: 14/15 (AM and PM Sessions)	November 5
● 1 st Grade: 15/15	November 5
● 2 nd Grade: 15/15	November 12
● 3 rd Grade: 17	November 30
● 4 th Grade: 16/17	November 30
● 5 th Grade: 19	December 7
● 6 th Grade: 17/18	January 11
● 7 th Grade: 16/16	January 11
● 8 th Grade: 13/14	January 11

Staff Training & Family Education

All faculty/staff will be required to participate in a training session regarding the requirements and practices contained in this document, including education on the prevention and spread of COVID-19. During this training, clear expectations will be communicated to staff including: (a) monitoring and assessing students for COVID-19 symptoms; (b) monitoring students to maintain social distancing and wearing PPE, consistent with county health requirements; (c) cleaning and disinfecting of the school premises, including classrooms, bathrooms and common areas.

Protected time will be allocated at each week's faculty/staff meeting to ensure everyone is aware of updates and changes to our COVID response procedures and safety protocols, as needed. Ongoing training will also be provided as new COVID-19 updates are made available. All school families will be provided a copy of this document, as well as CDC's publication:

- [How to Protect Yourself and Others - COVID-19.](#)

Teachers will educate students on the importance of healthy hygiene practices, understanding and monitoring for symptoms of COVID-19 and physical distancing.

Testing of Students and Teachers

COVID-19 testing is a key strategy in reopening schools safely. When everyone is tested, it helps provide a baseline to identify asymptomatic carriers (people who are infected but showing no symptoms). Some people may be infected and contagious for days before they get sick, while other infected individuals may never develop symptoms. We will be encouraging everyone to get tested (at least every two months), even if they do not have any symptoms of illness. This bi-monthly testing will be a requirement for all staff.

Symptomatic testing: If a student or employee exhibits COVID-19 symptoms, the individual is sent home (or stays home). Testing for COVID-19 is encouraged. The student or employee can use the testing sites available on the County's website or make an appointment to see their medical provider. While waiting for results, the student or employee will not be able to return to school.

Response testing: If a student or employee is exposed to a confirmed case of COVID-19, the student or staff member is required to quarantine for 10 days. Testing for COVID-19 is encouraged. The student or employee can use the testing sites available on the County's website or make an appointment to see their medical provider.

Asymptomatic testing: Employees participate in asymptomatic testing. The school has established a schedule for testing so that employees are tested once every two months. The employees use the testing sites available on the County's website.

Employees and students will not need to be re-tested before returning to school, but someone who tested positive for COVID-19 should isolate for at least 10 days, and at least 24 hours have passed since recovery, defined as resolution of both, fever without use of fever inducing medication, and improvements of cough, shortness of breath or other respiratory symptoms. In

all such cases, the person shall not enter the campus without obtaining written medical clearance and providing it to the school principal.

Surveillance Testing of Staff

Asymptomatic testing: Employees participate in asymptomatic testing. The school has established a schedule for testing so that employees are tested once every two months. The employees use the testing sites available on the County's website.

A minimum of 25% of our staff will be tested every two weeks, ensuring that 100% of our staff will be tested once within a two-month period, throughout the school year. A master schedule will be created to monitor dates and testing status for everyone on staff.

The employee's medical provider will facilitate testing. Each employee will be given this information on how to obtain testing with a 3-day turn-around for results.

Any student or staff member with a positive COVID-19 diagnosis will be required to isolate at home until 10 days have passed since symptoms appeared and at least 24 hours have passed without a fever and their symptoms have improved. Employees/students with a positive test result and symptoms who are directed to care for themselves at home may discontinue home isolation when at least 24 hours have passed since recovery. Recovery is defined as no fever without the aid of fever reducing medication as well as improvement in respiratory symptoms (e.g. cough, shortness of breath), and at least 10 days have passed since their symptoms first appeared. In all such cases, the person shall not enter the campus without obtaining written medical clearance and providing it to the school principal. Contra Costa County's instructions on isolation and quarantine procedures can be found at:

- [Home Quarantine Instructions for Close Contacts](#)
- [Self-Isolation Instructions for Confirmed COVID-19 Cases](#)
- [Self-Isolation Instructions for Unconfirmed COVID-19 Cases](#)

Travel

The State of California has updated its travel policy with the following provisions:

- Non-essential travel (for recreational purposes) should be limited to 120 miles from the person's home.
- Californians who travel outside the state or the country must quarantine for 10 days upon their return to California.
- Visitors to California from other states and countries must also quarantine for 10 days upon their entry into California.

With this in mind, please limit recreational travel to no more than 120 miles from your home. If you must travel outside of California or outside of the United States, you will need to quarantine for 10 days upon your return to California.

Triggers for Switching to Distance Learning

School Closure Determinations

Individual school closure, in which all students and staff are not on campus, is recommended based on the number of cases and stable groups impacted, which suggest that active in-school transmission is occurring. Closure should be done in consultation with the LHO. Situations that may indicate the need for school closure:

- Within a 14-day period, an outbreak has occurred in 25% or more stable groups in the school.
- Within a 14-day period, at least three outbreaks have occurred in the school AND more than 5% of the school population is infected.
- The LHO may also determine school closure is warranted for other reasons, including results from public health investigation or other local epidemiological data.

Length of closure: 14 days, or according to a decision made in consultation with the LHO.

CDC: Back to School Strategies and Tips

- [Symptoms of Coronavirus Disease 2019](#)
- [I Think or Know I had COVID-19, and I had Symptoms. When Can I Be With Others?](#)

The state, county and/or the Local Health Officer may also determine school closure is warranted for other reasons, including results from public health investigation or other local epidemiological data.

Communication Plan

Open communication is key to our success and is important for keeping our school healthy. The weekly school newsletter will include a health/safety section that will house ongoing reminders for personal protection equipment, removing personal belongings and the importance of washing hands and good hygiene.

Employees who had “close contact” with a person confirmed or suspected of having COVID-19 will be notified. The CDC defines “close contact” as being within six feet for a period of at least 15 minutes from two days before the testing until meeting the criteria for discontinuation of home isolation. However, this standard of “close contact” is not absolute and can vary depending on the circumstances. The staff notification letter will be based on the template provided by Contra Costa County: [Contra Costa County Template Letter to Staff](#)

The parents or guardians of students who had “close contact” with a person confirmed or suspected of having COVID-19 will be notified. The CDC defines “close contact” as being within six feet for a period of at least 15 minutes from two days before the testing until meeting the criteria for discontinuation of home isolation. However, this standard of “close contact” is not absolute and can vary depending on the circumstances. The parent notification letter will be based on the template provided by Contra Costa County: [Contra Costa Template Letter to Parent/Guardians](#)

Our school will adhere to CDC, CHD, CCCPHD, FERPA and HIPAA guidelines when communicating with staff and families about confirmed positive cases and high-risk exposures at the school (consistent with privacy requirements). These communications will be made via email using School Messenger, and/or Constant Contact. Schoolwide meetings will also be called for schoolwide exposure and cohort meetings for isolated cohort exposure.

Key Constituent Consultation

The Pastor and Staff were informed of the plan in writing and then given the opportunity to share concerns, or comments regarding the plan. Each member was sent a confidential survey and concerns expressed on that survey were discussed on an individual basis. Representatives of the parent community (School Board and PACE/PTG Board) were also given the School Plan and given the opportunity to share thoughts and concerns. The Plan was discussed at length. Once vetted, the plan was sent to the school community via the school information system (SchoolMessenger) and Constant Contact. This Plan will be revised as needed and dated for the update. The Plan is also posted on the school website: www.stagnesconcord.com.
