

Diocese of Oakland Technology Responsible Use Policy Students and Parents

Introduction

The Diocese of Oakland recognizes the various ways, both positive and negative, that students and parents can use technology both in school and at home. Our objective is to fully prepare students to use the resources available in ethical, constructive, productive and intelligent ways as Christian citizens in a global community.

Students are expected to abide by the student responsibilities below anywhere or anytime their actions can affect the school or other students. While the school is not responsible for policing online activity, conflicts online between students, parents, or staff rarely stay online; the school is notified when such conflicts affect the wellbeing of members of the school community. Students and parents who use technology in ways that are contrary to our mission will face disciplinary action, up to and including expulsion.

Jurisdiction and Definitions

While using technology, students are expected to comply with the code of conduct published in the school's parent-student handbook. The school's jurisdiction with respect to conduct includes:

- When the student is on school grounds, or on the way to or from school
- At officially sanctioned school-sponsored events, or on the way to or from such events
- Outside of the school when a student's actions negatively impact another student, staff member, or the school

For purposes of this document, "technology" includes, but is not limited to:

- Hardware: computers, servers, tablets, e-Readers, phones, smartphones, digital cameras, gaming devices, wearable devices (watches, headphones, etc), networking equipment, or accessories
- Software: operating systems and programs
- Services: email, web sites, web apps, learning platforms, internet service
- Telecommunications: transmission or publishing text messages, chat room commentary, comments, pictures, videos, audio recordings, posts on social networking sites, blogs, wikis, gaming, chats, and other digital transmissions.

"Personal information" includes a person's name, address, email addresses, phone numbers, online accounts, or other contact or identifying information.

School Responsibilities

Protecting student data

The school maintains electronic records and shares information from those records in order to provide online educational technology services. Electronic records allow the school to efficiently distribute information to school officials - such as teachers receiving parent phone numbers and email addresses - and to online services. For example, the application Mathletics receives each student's name, grade level, gender, and email address, used to set up their account. The school only uses services that have high standards for security and privacy, and do not sell or share student data. Most have signed the Student Privacy Pledge (studentprivacypledge.org). Parents may request a review of services in use by the school.

Initial: The school may store and share student information electronically for purposes of distributing that information to school officials and providing educational technology services.

Efforts to protect students online

Internet within the school is filtered with the intent to block access to obscene and non-educational material. In addition, the school has adopted and enforces an Internet safety policy to monitor network activity, promote safe communications, educate students in Digital Citizenship, and prevent unauthorized access to the school network and community data.

Parent Responsibilities

Parents are expected to abide by the code of conduct found in the school's parent-student handbook, to the extent that their technology use affects other members of the school community.

Student Responsibilities

As a member of the school community, I agree to the following rules and code of ethics:

1. **I will treat others with respect and compassion in all interactions**, including online communication. I will treat others kindly in all communications, including “private” messages. I will not publicly disparage the school, staff, students, or other members of the school community. I recognize that anything sent using technology can be copied and saved forever online.

I will not transmit inappropriate material to others via messages, social media, or other ways. Examples of inappropriate material include messages or images that are intentionally insulting, sexually explicit, racist, sexist, use foul language, depict alcohol or drug use, or include graphic violence. Such material usually upsets other students and is brought to the attention of teachers, even when sent outside of school.

2. **I will care for school devices and systems**, and not vandalize or intentionally damage them in any way. This includes hardware, software, and internet services owned, provided, or supported by the school. I will not waste school resources like paper or ink.

3. **I will respect others' privacy and work**, by protecting and not sharing or using passwords, messages, photos, recordings, or personal information of someone without their permission. I will not attempt to log into any device, program, or service as another person. I will protect and respect others' work: for other students, I will not attempt to alter or delete their work without permission. For creators who have shared their work online, I will respect copyright, abstain from piracy, and avoid plagiarism.

4. **I will use school technology resources for educational purposes only**. I will stay on task during classroom activities using technology. I will not use school devices, software, or systems (like wifi) for non-school purposes like chat, gaming, playing music or watching videos. I will not use school resources for any commercial enterprise. I will not search for material on the internet that is illegal or inappropriate for school, and if I encounter such material accidentally I will not pursue it.

5. **I will use personal technology only as directed by staff while at school**. I will only use my personal technology (including devices and internet service) at school if allowed by the school and staff. If permitted, I will use my personal technology only for educational purposes. I understand that my personal technology is still governed by this Technology Responsible Use Policy and/or the school's BYOD (Bring Your Own Device) policy. The school will not be responsible for the security, troubleshooting, charging, or repair of personal devices.

Any user who violates the Responsible Use Policy or local, state, or federal law, faces the restriction or loss of technology privileges, disciplinary action, and may face legal prosecution. Parents may be held financially responsible for any student action that results in damage to school technology or a cost to the school.

Student Signature: _____ Date: _____

Printed Student Name: _____

By signing below, I give permission for the school to provide technology services and for my child to use technology in accordance with the rules and code of ethics above.

Parent/Guardian Signature: _____ Date: _____

Printed Parent/Guardian Name: _____
